OBJECTIVE

Dedicated frontend developer with expertise in HTML5, CSS3, JavaScript, React.js, TypeScript, Node.js, Express, and MongoDB. Seeking opportunities to contribute to impactful web projects and collaborate within dynamic teams to further enhance proficiency in frontend development and emerging technologies.

SKILLS

- Communication
- Team Work & Flexibility
- Fast Learner
- Responsibility

LANGUAGES

- Arabic, Native
- English, Fluent

EXPERIENCE

Apps Square, onsite • Frontend Developer
(July 2024) - (September 2024)

Assisted in developing web applications using React and Next.js, focusing on dynamic and responsive UI components. Collaborated with team members, participated in code reviews, and learned modern development practices.

EDUCATION AND CERTIFICATIONS

HIMIT, Kafr Elsheikh • Bachelor's In Computer Science – Good Grade
Graduation Year (July 2025)

I enrolled in the Higher Institute of Management and Information Technology of Kafr ElSheikh on October 2021, and I will graduate in July 2025.

Coursera • Meta Frontend Development Intensive Course
Compilation Date (July 2024)

Completed an intensive Meta frontend development course specializing in React.js. Acquired hands-on experience in building interactive and responsive web applications using React.js libraries and tools. Developed proficiency in state management, component architecture, and UI/UX design principles within the Meta ecosystem. Applied learned skills to create dynamic and user-friendly interfaces for modern web applications.

PROJECTS

- **My Own Portfolio**
  Created a personalized Online Portfolio using React Js, showcasing a collection of web development projects, skills, and achievements. Designed an interactive and visually appealing platform to highlight my professional journey, skills, and contributions to the field of web development, facilitating effective self-presentation and career advancement.

- **E-Commerce Website Using MERN Stack**
  Developing a full-stack e-commerce website using the MERN stack (MongoDB, Express.js, React, Node.js). Implemented features such as user authentication, product management and shopping cart functionality. Focused on creating a responsive, user-friendly interface and optimized backend for performance and scalability.
